**Welcome to Cooper Clinic Executive Health.**

**At Cooper Clinic, preventive medicine isn’t just something we do. It’s all we do.**

The very notion of preventive medicine as a science was pioneered by Kenneth H. Cooper, MD, MPH, in 1970 when he founded The Cooper Institute® research and education nonprofit followed by Cooper Clinic later that same year.

Today, Dr. Kenneth Cooper and his son, Tyler C. Cooper, MD, MPH, have expanded their healthy-living mission to create Cooper Aerobics and it’s seven health and wellness entities.
“Cooper Clinic saved our lives in 1997. A mass was discovered during my first-ever mammogram, which at age 38 I wouldn’t have had except it was part of the comprehensive exam. That same day, my husband’s high calcification was detected by the CT scan. We are sold on Cooper for life!”

The Cooper Clinic Executive Health exam isn’t just complete—it’s comprehensive. And includes a series of in-depth medical assessments, health screenings and diagnostic imaging tests—all customized based on age, gender and medical history. Each component incorporates the latest in science, technology and research.

As a busy executive, your time is invaluable. We’ve engineered the exam so all tests are completed in one day and you receive your results the same day. Also, plenty of time is built in for one-on-one consultation with your Cooper Clinic physician—as much time as needed.

At day’s end, you will have a clear picture of your health that will provide you with essential insight into the state of your well-being. Within 24-48 hours of your exam you’ll have access to your results through our online Cooper Clinic Patient Portal. A complete report can also be mailed to you.
More than 50 years of preventive medicine research at Cooper Clinic and The Cooper Institute® have proved a healthy lifestyle improves the quality and quantity of life.
